Description

Welcome to the Bible Activities for Kids website. This website is focused on helping parents, teachers and homeschoolers find **creative, faith-based activities** for children that reinforce Biblical stories, scripture and Christian values.

We are moms who want to help our children learn about Jesus and share the methods we use with others who may be looking for ways to teach the gospel to children. In our churches we have served in the childrenâ??s ministry department as leaders and teachers. We believe that the Holy Spirit has inspired us on this journey and so we have started this website along with a youtube channel to help Christian parents.

default watermark

We supports the view that making Bible-learning fun helps with retention and spiritual growth. We want our children and your children to grow strong in the Lord so we encourage you to journey along with us. In addition to the numerous free resources we offer you can also become a Bible activities for kids member and get access to additional tools for a small contribution.

What You Will Find Here

- Blog posts with lots of concrete activity ideas: crafts, story-based games, Bible story puppets, verse hunts, etc.
- Free or low-cost Christian educational resources (printables, some store items) linked from the blog.
- Practical guidance on *why* using activities is effective (engagement, memory, spiritual growth) in the context of children learning scripture.
